LABOR LEADER TO CONFER IN EFFORT TO ADJUST STRIKE

Batcheller Girls' Walk-out Caused By Complaints Over Wage Scale.

International organizers today took full charge of the walk-out of all the machine ironers at the George C. Batcheller & Co. corset plant in the South End. About 50 girls refused to continue working yesterday under conditions they said gave them less than the average ironer's wage.

In an effort to amicably effect a settlement of the differences John Pierce, first vice president of the International Union of Ladies' Garment Workers, was called to Bridgeport and left for New York this morning to hold conference with the heads of the company.

There is a belief that the wages may be so adjusted that the machine ironers will get the average wage of between \$10 and \$11 per week instead of the \$8 to \$9 now effective. The direction of Patrick F. Duffy, general organizer of the American Federation of Labor, many meetings of the federal union are scheduled for this and the coming week. A meeting of both girls and men employed at the Bryant Electric Co. will be held in Rakoczy hall at 8 o'clock Friday night. Girls employed in the graphophone plant will meet at the same hall Tuesday night and workers at the Siemon Co. will meet at Socialists' hall next Tuesday evening.

A benevolent and dramatic off ring is scheduled for the Hungarian-speaking workers of the West End plants at Rakoczy hall on the night of November 19.

JENNINGS JURY IS UNABLE TO AGREE; NEW TRIAL LIKELY

After being out for two hours this morning a jury in the civil common pleas court reported that it could not agree upon a verdict in the \$1,000 suit brought by C. K. Hunter of Norwalk against Erwin M. Jennings, the Fairfield avenue garage proprietor. The jury was out for 45 minutes yesterday afternoon and was excused for the night when the court was informed at 5 p. m. that no agreement had been reached. Deliberations were resumed at 10 this morning. When informed of the final disagreement, Attorney John Smith, counsel for Hunter, said the suit would be tried again. Hunter claimed he was struck in the head by an automobile "jack" wielded by Jennings. The latter claimed he struck in self defense.

The jury next considered the case of the Goodby Rankin Co. of Providence, R. I., against Ray H. Sherwood of Norwalk. It is alleged that Sherwood owes \$122 for goods purchased.

Gondos Now Said to Have Been in Service of Austria-Hungary

(Continued from Page One)
he had left under the cover of a cloud of opposition. Karolyi violently in both Hungarian papers of New York and in some of the English periodicals. Editors of Hungarian papers in New York began to point out the discrepancy between the literature being disseminated by Gondos, but as a result he was brought in close touch with the Austrian government officials of high degree in America.

"It was at this time that Alexander first came to Bridgeport. Here he was active against the count and also helped himself in labor matters, being credited with taking the factory side of the affairs for remuneration, stopping several pending strikes of the Hungarian people. For this act he was given a Socialist paper, opposed him to the extreme.

"Though he was somewhat discredited by the attacks of the 'Eloire' he managed firmly to interpose himself between the office of the London physician in the West End. He later came in closer touch with the politicians of Bridgeport.

"Lately he has been closely identified with the war loan being floated here for Austria-Hungary. The here for Austria-Hungary. The agents of which government were the Trans-Atlantic Trust Co. of New York.

"Much of the money here was collected by Gondos personally or stimulated through his efforts. In return for the payments made, the subscriber to the loan would receive a bookkeeping bearing the official seal of Austria-Hungary, issued by the office Department of the Kingdom of Hungary and signed with the official government seal and signature of its chief treasurer.

WOMAN PHYSICIAN ON ANCONA LEFT NEW YORK TO HELP THE WOUNDED

New York, Nov. 11.—When the Ancona sailed from this port for the Mediterranean, October 17, there were 158 officers and men in her crew. These, added to the passenger list of 482 make a total of 640 persons aboard when the vessel was torpedoed. The local agents of the Italian line to which the Ancona belonged still awaited an answer to their messages to Naples asking for a list of passengers when the steamer left that port. Ambassador Page at Rome has notified Washington that 27 passengers, believed to be Americans, and all traveling third class, were lost. Mrs. Cecile L. Griel, of New York, a well known physician, is the only American thus far reported among the rescued. She was a medical director of the Manhattan Trade school, and had resigned that position and spent much time traveling abroad studying the hospital systems. Since the war began she had been working in a hospital for convalescent soldiers at Bari, Italy.

SUBMARINE HALTED SHIP TO ASK ABOUT ROUTE THE LINER ANCONA WOULD TAKE

Naples, Nov. 11.—The port authorities have learned that last week a submarine flying the German colors stopped a boat and asked for information about the passage of steamers from Naples. This incident is connected by the authorities with the sinking of the Ancona, for which the submarine is supposed to have been lying in wait.

WOMEN THAN LUSITANIA SAYS ITALIAN PRESS OF SINKING OF THE ANCONA

Rome, Nov. 11.—Commenting upon the sinking of the Ancona, the Tribune says: "It was even more barbarous than the sinking of the Lusitania, for the passengers were not warned against sailing before they boarded the steamer, as in the Lusitania case. Modern civilization must rise against the criminal responsibility for the Ancona outrage. The Austrians if the submarine was Austrian—surpassed their allies and teachers. President Wilson in the name of outraged humanity must read over the note received from Berlin and have it respected."

The Idea Nazionale says the Ancona case recalls the Lusitania but that it is "graver and more ferocious as the submarine fire hundreds of shots against the Ancona to save powder supplies of which are difficult to obtain in the Mediterranean, thus using the most inhuman methods and making escape precarious."

complete communication with the British fleet. This report, if true, insures the temporary safety of Monastir, where a condition approaching panic has been prevailing. Monastir has a large Bulgarian population and it is feared some of the inhabitants might join the bands of Bulgarian irregulars, which on several occasions recently have threatened the city.

The London newspapers continue to devote much space to the sinking of the Italian steamship Ancona. Many of them editorially express the opinion that the attacking boat was a German submarine and they arrive at the astute conclusion that the United States is more concerned in exacting reparation than any other nation.

Plan Six Family House For Plot In Boom Section

A six family house of brick and steel construction will be erected on the plot of the Cna Co. to West End plant street provided the building commissioners will give permission for the raising of the building there and provided a permit for the building can be procured. There was a story current in the East End today that the purchasers of the property are agents of the U. M. C. Co. but Mr. Clarke said today that he had bought the property for himself on speculation.

More than \$5,000,000 of the war profits of the Krupp Co., in Germany, will be given for the relief of soldiers' families.
